

Running Hours Counter, HC 36/24

Monitor operating time, warranty periods & maintenance intervals

DEIF's compact HC 36/24 Running Hours Counter has been designed to establish and monitor operating time, warranty period and maintenance intervals on electrically driven machines and devices, mainly in the mechanical processing industry.

The unit can also be applied to central heating boilers, electrical furnaces, power drives and marine applications.

HC 36/24 features

- ▶ Compact design (36 × 24 mm)
- ▶ Synchronous motor (AC version)
- ▶ Step motor (DC version)
- ▶ 7 digits read-out (whole figures white, decimals red/black)
- ▶ For flush mounting

HC 36/24 type approval
