

AC/DC current and voltage with 90 ° or 240 ° pointer

Measure DC signals, AC voltage & current

The moving coil meters from DEIF are applied to measure low power DC signals or AC voltage and current.

General features

- ▶ Accuracy class: 1.5
- ▶ 90 ° or 240 ° pointer deflection
- ▶ IP52 protection (IP54 on request)
- ▶ Customised and exchangeable scale available

Variants

Features

DQ	DC voltage or current meter. 60 mV to 300 V DC, 1 mA to 40 A DC.
VDQ	AC voltage meter or ammeter. 25 to 300 V, 1 to 600 mA.
