

Multi-function synchroscope

Safe, simple & precise check synchronising relay

The CSQ-3 integrates synchroscope and check synchronising relay into a microprocessor-controlled, easy-to-install solution.

The CSQ-3 unit is operated from the front using push-buttons behind the removable front cover, protecting users from the near hazardous voltages during set point programming: an innovative DEIF feature usually seen in similar products where switchboards have to be opened to operate the synchroscope.

CSQ-3 features

- ▶ Multi-function precision LED synchroscope
- ▶ Easy push-button programming of all set points
- ▶ Very high user safety
- ▶ High immunity to harmonic distortion
- ▶ Dead-bus functionality
- ▶ Voltage measurement
- ▶ Frequency matching
- ▶ Phase angle comparison
- ▶ DIN standard size: Q96
