

How to install the SIM card

1. Use a Phillips screwdriver to remove the cover.
2. Make sure that the SIM card contacts face up.
3. Gently slide the SIM card into the slot until it clicks into place.

NOTE To remove a SIM card, press the SIM card in, and release it. Gently grip the SIM card and pull it out.

Connect to the cloud

1. Install and set up the data acquisition unit included in this box.
 - Remember to insert the SIM card.
2. Go to **deif.com/insight** and use the quick start guide to finalise the installation.
3. Once done, you're ready to react on the real-time data from all units, no matter where they are.
